# ICBT Campus Project Log Sheet – Supervisory Sessions for CIS6035 -Development Project

**Notes on use of the project log sheet:**

1. This log sheet is designed for meetings of more than 15 minutes duration, of which there must be at least six (06) during the course of the project (SIX mandatory supervisory sessions).
2. The student should prepare for the supervisory sessions by deciding which question(s) he or she needs to ask the supervisor and what progress has been made (if any), since the last session.
3. A log sheet is to be brought by the student to each supervisory session.
4. The actions by the student (and, perhaps, the supervisor), which should be carried out before the next supervisory meeting, should be noted briefly in the relevant section in the form.
5. The student should leave a copy (after the session) of the Project Log sheet with the supervisor and to the coordinator (for the Manager to include his signature). One copy should be retained with the student.
6. It is compulsory that students bring their previous supervisory session log sheets together with the project file during each supervisory session.
7. The log sheet IS a deliverable for the project, and it is an important record of a student's organization and learning experience. The student MUST hand in the log sheets to the program office after submitting the softcopy to the University along with the hardcopy within 05days of the Turnitin submission.

**Student's Name: Rajhalakyaa Mahendrarajah**

**University Number:** 20343574

**Date**: 14.02.2026 **Meeting No**:03 **Intake**: **May 2025**

**Project Title**: Web based Gym Management System

**Supervisor's Name**: **Mr.N.Jayapriyan** **Supervisor Signature**: N. Jeyapiriyan
**Manager's Name: T.Sutharsan** **Manager's Signature**:
.

**Work progression as to date (noted by student BEFORE mandatory supervisor meeting):**

After receiving feedback during the third supervisory session, I started working on the tasks suggested by the supervisor. I began preparing the database schema for the Web-Based Gym Management System, identifying the required tables such as members, trainers, staff, attendance, and membership plans along with their relationships. In addition, I started writing the introduction and literature review sections of the project report by reviewing related research and existing gym management systems.

I also continued working on the front-end integration with backend functionalities, ensuring that the system modules interact correctly with the database. Furthermore, I reviewed security considerations and testing approaches, including basic compliance requirements and system testing methods to ensure the reliability and performance of the system.

**Items for Discussion (noted by student BEFORE mandatory supervisor meeting):**

During this meeting, I planned to discuss the database schema design and confirm whether the defined tables and relationships are appropriate for the system requirements. I also intended to seek feedback on the introduction and literature review sections that I started preparing for the report. In addition, I wanted guidance on testing strategies and system evaluation methods to ensure the project meets the required academic and technical standards.

**Action List (to be attempted by student by the NEXT mandatory supervisory meeting – TO BE FILLED SUPERVISOR):**

The supervisor advised me to continue improving the system by completing the remaining system modules and integrating them with the database. I was also instructed to further develop the testing and evaluation section of the project report and apply appropriate testing strategies to verify system performance. Additionally, the supervisor recommended enhancing the system by including analytical features and performance evaluation mechanisms before the next supervisory meeting.

**Note: A student should make an appointment to meet his or her supervisor (via phone call or e-mail) at least 3 days prior to supervisory session. In the event a supervisor could not be booked for consultation, the Manger should be informed 2 days prior to supervisory meeting so that a meeting can be subsequently arranged.**
